

# CAPABILITY STATEMENT

**KEEPING YOU ON TRACK**

Corfad is an Australian-owned and operated company that's recognised as a well-respected specialist in rail infrastructure, maintenance and construction.

Throughout the industry, we are known for our dedication to safety. Our leading-edge systems protect clients, the public, workers, and our staff. At Corfad, we promise professional responses delivered by a team of highly skilled staff; our engineers, project managers, experienced weld teams and skilled labour hire are all top notch. And they are all backed by our large, technologically advanced fleet, up-to-date equipment range and maintenance crews that are also second to none.

With a reliable 24/7 operation, Corfad promises and delivers high quality outcomes to all rail network owners throughout Australia – on time and on budget.

## THE CORFAD DIFFERENCE

It's simple – we don't want to be the biggest in the business; we just want to be the best. To this end, we will continue to upskill and build even greater trust and respect; to offer exemplary safety practices, together with irrefutable reliability, dependability and honesty.

Every project we undertake- regardless of size - deserves strong leadership, creative solutions and best in industry practices. At Corfad, we're proud to add our in-depth understanding of the many facets of the business, and the ever-changing challenges that face the industry. All that, plus a strong team heart, is what sets us apart – and promises a solid foundation for the future.

“We are energetic, enthusiastic and committed to making our business a stand-out operation in all ways.”

## MISSION STATEMENT

“To *always* care about safety, job quality, integrity, our clients, and each other to the very best of our ability.”

*Colm Hand CEO and MD*

## HSEQ, JAS-ANZ AND THE SAFETY-QUALITY CONNECTION

There’s a powerful connection between safety and job quality. We believe it results from the extreme levels of care and respect shown at every stage of the job; and because every member of the Corfad team works together with JAS-ANZ accreditation and HSEQ to manage safety, risk reduction, environmental and quality concerns, the resulting job quality can be assured.

The entire Corfad team is dedicated to keeping safety our number 1 priority – safety for personnel, our clients, our co-workers, job site personnel, job site visitors, contractors and the community.

Corfad is accredited to ISO 45001, ISO 9001:2005 and ISO 14001: 2005, and complies with all National Rail, WHS and Environmental legislation.

Not only that, but as a company, from the top down, everyone is totally committed to continual upskilling and improvement of processes; and it’s this attitude that has earned us a reputation for the high standard of quality on every job we do.

- All plant and equipment information is stored on this system and the Plant & Equipment Register has a quick and easy search facility using QR scanning.
- All calibration and maintenance item requirements are listed here (including testing and tagging) with automatic update notifications.
- Skytrust automatically allocates QR codes to individual plant, enabling maintenance staff to access plant information in the field, instantaneously.
- All workers are trained, competent and skilled in their roles.

## PEOPLE POWER

It's people who create the real differences in life. So when you deal with our dedicated core team, you'll enjoy decades of experience in rail maintenance and construction throughout Australia and New Zealand. Every team member provides truly expert advice, flexible approaches to all situations, and educated, skillful solutions.

Everyone fully understands the challenges faced by the rail infrastructure industry. We are acutely aware of the need for 24/7 rapid responses, minimal downtimes and exemplary safety and quality of all work.

The very proficient services offered by our experienced Project Management teams, Weld Teams, Operators and labour explain why Corfad is the supplier of choice for many Tier 1 and Tier 2 companies.

## KEEPING GREAT COMPANY

They say you can tell a lot about a company by looking at the company it keeps. Our client list is blue chip all the way; and after taking care of rail infrastructure, construction and maintenance for public, private and government sectors throughout Australia, the list of return customers is a glowing testament to the efficiency and integrity of our operation.

“ We have used the team from Corfad multiple times for track related works within our Signalling Project works. We can always rely on them to deliver on time, on budget and safely. ”

*Julian Roberts - Wabtec Control Systems.*

# RAIL SERVICES

We provide a vast skill set from high level management to weld teams and labour hire.

## HIGH LEVEL MANAGEMENT

- Project Management
- Engineering

## SPECIALISED TRACK PERSONNEL

- Protection Officers
- Superintendents
- Supervisors
- Track Inspectors
- Track Certifiers

## RAIL TESTING

- Ultrasonic Testing
- Verse Testing

## WELDING

All Weld Crews are skilled and ticketed in both Railtech and Thermite procedures.

- Aluminothermic
- Heavy Rail – All sizes
- Crane Rail – All sizes
- Grove Rail – All sizes
- Wire Feed Welding
- Sydney Trains Approved Welders
- Melbourne Metro Trains Approved Welders

## LABOUR HIRE AND OPERATORS

We provide a skilled labour hire division to ensure all track services can be completed.

- Skilled Labourers
- Ticket Operators for All Plant
- HR/Floats
- Riggers and Dogmen
- Electrical Spotters
- Traffic Management
- Trades

## PLANT

We have an extensive range of modern equipment that greatly assists in delivering favourable project outcomes, on time, on budget, safely.

To help facilitate excellent outcomes for every undertaking, consult our people who understand our extensive range of equipment – and who can advise what's most suitable for you.

## GENERAL PLANT

- Excavators 3 to 30 t
- Front End Loaders
- Truck and Dogs
- Graders
- D5 Dozer Rollers
- Skid Steer
- Rollers
- Water Carts
- Rock Hammer
- Compaction Plates

## HI RAIL

- Excavators 5 to 22 t
- Grinders
- Trolleys
- Hydrema Dumpers 12 t
- Vacuum Trucks

## ATTACHMENTS

- Tampers
- Sleeper Grabs
- Fast Clip Head (clip up and de clip)
- Augers 300-1200 mm
- Octopus
- Platypus
- Forks
- Rail Treater
- Tilt Buckets Hi Rail
- Excavators 5-22 t
- Grinders
- Trolleys
- Hydrema Dumpers 12 t
- Vacuum Trucks

“ Corfad are a regular provider of rail inspection, maintenance and callout services for Lycopodium – they can always be relied on for prompt and competitive tendering as well as a fast response to assist in emergency works or last minute rail asset inspections and certification.”

*Peter Hodgson - Rail Delivery Manager*

## EQUIPMENT CAPABILITY

Our business specialises in dry or wet hire equipment, with an extensive, modern range that's continually upgraded, fully serviced and maintained to the highest safety regulations and operating specifications. All equipment is certified and complies with state and national safety requirements and comes with a QR code for instant access to important information such as operation manuals, risk assessments and maintenance schedules.

## PLANT HIRE

With access to the additional, up-to-date resources of our Rail Division, we can provide site-specific equipment for any project, regardless of size. Regular maintenance, safety compliance checks and servicing (by our team of expert fitters) are conducted to assure every client of the safety, dependability and reliability of the machinery. Wet or dry hire is available.

## CIVIL CONSTRUCTION

Apart from rail-specific projects, we also keeping busy with a wide variety of civil construction related projects. These include:

- Burdekin Park Medical Centre, Singleton NSW
- Varley Engineering Car Park, Carrington NSW
- Warehouse Conversion to Showroom in Wyland Caravan Park, Singleton NSW

We are commencing the building of a new medical centre and shopping area in Wyee in 2020.

# PROJECTS

Every project brings with it a unique set of challenges, each demanding an individual solution to the expected – and often unexpected – problems. Here, you can see our solutions in action, across NSW, NT, SA and VIC.

<b>Laing O'Rourke - NSW</b>	RFD fault removals, re-stressing, IRJ installation, Re-rail, SEPA, welding and labour support
<b>Laing O'Rourke/MTM - VIC</b>	RFD fault removals, re-stressing, Bunbury Tunnel, welding and plant support
<b>McConnell Dowell</b>	Turn out installation, assisting with flash butt welding, grinding and general labour hire, Aluminothermic Welding, WPA, welding and labour support
<b>Downer - VIC / SA</b>	Re-railing, Re-Sleeping and Turn out installation, Aluminothermic Welding, Warnabal Line upgrade, welding and labour support, Marla FBW
<b>ARTC - NSW</b>	RFD fault removals, Re-stressing, IRJ installation, Re-railing, Re-Sleeping, Turn-out and crossing installation, Aluminothermic Welding
<b>ARTC - Hunter Valley</b>	Complete Re-Rail Projects, Level crossings, Drainage works, Defect removal works, Supply of Plant/Machinery, Bridge & Culvert Renewals/Replacements
<b>V-line</b>	Re-gauge Crews, Level crossing renewals
<b>Keystone Civil - VIC</b>	Strail Pad Install, Culvert Install, Rail Replacement
<b>McInnes Earthworks</b>	Culvert installation and Re-railing around Gippsland
<b>John Holland NERL - VIC</b>	IRJ/GIJ Relocation Works, Supply of Plant/Machinery
<b>John Holland CRN</b>	Supply of Plant/Machinery, Aluminothermic, Welding, Skilled Labour Hire, Complete Re-Rail, Projects, Level crossings, Drainage works, Defect removal works
<b>John Holland NWPA - VIC</b>	Aluminothermic Welding, Skilled Labour Hire
<b>John Holland - NSW</b>	Aluminothermic Welding, Skilled Labour Hire, Supply of Plant/Machinery
<b>GBE -VIC</b>	Melton South Bridgeworks, Calder Park Bridge Replacements
<b>Sydney Light Rail</b>	Groove rail welding and building track
<b>Sydney Trains</b>	RFD fault removals, re-stressing, IRJ installation.
<b>Parramatta Connect</b>	Rail Welders and Track Slab Installation
<b>Metro Trains Melbourne</b>	Welding support
<b>Systems Connect</b>	Welding and labour support
<b>Pacific National SA</b>	Track Maintenance and support
<b>GREP</b>	Verse testing and Adjustment crews
